

SOFTWARE ENGINEER RESUME

Rashid Hussain

OBJECTIVE

Driven and detail-oriented **Senior VB.NET Developer** with a passion for crafting efficient and scalable software solutions. Leveraging over 5 years of hands-on experience, I specialize in designing, coding, testing, and debugging applications, with a strong focus on modernizing legacy systems by converting VB.NET applications into ASP.NET Core solutions. At Nizam Sons Pvt. Ltd., Sialkot, I aim to contribute my expertise in software development and system migration to propel projects to new heights. Eager to collaborate with a dynamic team, I strive to continuously learn and adapt to emerging technologies while delivering high-quality results that exceed expectations.

EXPERIENCE

Senior Vb.Net Developer

2021 To Onward

Seasoned and accomplished Senior VB.NET Developer with a proven track record of success at Nizamsons Pvt Ltd since 2021. Bringing comprehensive experience in designing, developing, and implementing VB.NET applications. Recognized for proficiency in leading project teams, optimizing code performance, and delivering high-quality software solutions that align with business objectives.

Currently leading the migration and conversion of legacy VB.NET applications into modern ASP.NET Core solutions, ensuring scalability, maintainability, and alignment with evolving business needs. Excited to leverage my expertise and contribute to the continued success and innovation of Nizam sons Pvt Ltd.

Web Developer

2019

E-Rozgaar Training Program

During my 6-month internship at GC Women University Sialkot's e-Rozgar training program, I served as a web developer. Working under experienced mentors, I contributed to designing, developing, and maintaining various web projects. This experience equipped me with practical skills in HTML, CSS, JavaScript, and responsive design principles. I also developed soft skills like teamwork and problem-solving. Grateful for the opportunity, I am confident these experiences will benefit my future career in web development.

Web Developer

2016

Ayan Group Of Company Lahore

In my role as a web developer at Ayan Group of Companies in Lahore, I focused on creating and maintaining web-based solutions to meet the company's digital needs. Utilizing a variety of programming languages and frameworks, I collaborated with team members to design and develop responsive and user-friendly websites. My responsibilities included coding, testing, and debugging to ensure optimal performance and functionality. This experience allowed me to enhance my skills in web development while contributing to the company's online presence and success.
