

# SOFTWARE ENGINEER RESUME

**Rashid Hussain**

## OBJECTIVE

Driven and detail-oriented Senior VB.NET / Full Stack .NET Developer with over 5 years of experience in enterprise software development, reporting and system modernization. Currently working at Libermann International on Oracle NetSuite ERP reporting and dashboard development, using SuiteScript 2.x, SuiteQL, Suitelets, professional PDF/HTML reporting and Telerik/TRDP. Experienced in developing MRP, purchasing, production, inventory and process follow-up reports, interactive dashboards, KPI views, grids, charts, filters and export solutions. Also experienced in VB.NET, ASP.NET Core and SQL Server, including modernization of legacy business applications.

## EXPERIENCE

Senior VB.Net / Oracle NetSuite Reporting Developer

2021 To Onward

Libermann International

Working on enterprise .NET development and Oracle NetSuite ERP reporting solutions. Develop SuiteScript 2.x Suitelets and SuiteQL reports for MRP, purchasing, production, inventory, material follow-up and business process reporting. Design professional NetSuite PDF/HTML reports and Telerik/TRDP reports with structured document information, detail sections and business data.

Develop interactive reporting dashboards with Kendo-style grids, KPI views, charts, cascading filters, global/column search, pagination, progressive data loading and Excel/CSV export. Work on MRP demand vs PO, process/SLA follow-up, material receive/QA, work order and operational dashboards. Optimize SQL/SuiteQL queries, prevent duplicate reporting rows and improve data accuracy and report performance. Also continue legacy VB.NET to ASP.NET Core modernization and SQL Server development.

### Web Developer

2019

E-Rozgaar Training Program

During my 6-month internship at GC Women University Sialkot's e-Rozgar training program, I served as a web developer. Working under experienced mentors, I contributed to designing, developing, and maintaining various web projects. This experience equipped me with practical skills in HTML, CSS, JavaScript, and responsive design principles. I also developed soft skills like teamwork and problem-solving. Grateful for the opportunity, I am confident these experiences will benefit my future career in web development.

### Web Developer

2016

Ayan Group Of Company Lahore

In my role as a web developer at Ayan Group of Companies in Lahore, I focused on creating and maintaining web-based solutions to meet the company's digital needs.

Utilizing a variety of programming languages and frameworks, I collaborated with team members to design and develop responsive and user-friendly websites. My responsibilities included coding, testing, and debugging to ensure optimal performance and functionality.

This experience allowed me to enhance my skills in web development while contributing to the company's online presence and success
